About Us

St. Thomas—Elgin Second Stage Housing is a non-profit, charitable organization that provides housing and transitional support for women, with or without children, leaving an abusive relationship.

Our affordable, well maintained apartment complex offers a safe environment where we offer group and individual counselling, advocacy, referral and parenting support. The long term support offered in our Residential Program empowers women and their children to move beyond the abuse in their lives.

26 women and 39 children lived at Second Stage Housing between April 2016 and March 2017 with an average length of stay of 9 months for an occupancy rate of 98%.

The annual cost of our Residential Program is \$120,000. Women pay monthly rent geared to their income; they do not pay for the counselling and support services they receive while residing at Second Stage.

The average annual cost per women for the Women's Program in \$4200.00

All funds raised during the golf tournament go to directly support our Women's and Children's Program.

Please note date of tournament is JUNE 15, 2018.
